Security and data protection

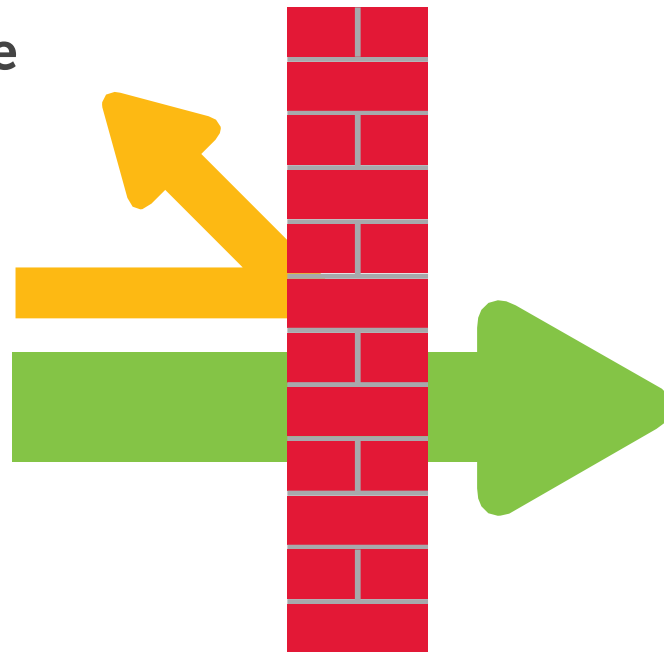

Dell Software solutions

1. Inteligencia de aplicaciones

Firewalls de aplicaciones inteligentes pueden filtrar aplicaciones improductivas por lo que sólo las aplicaciones críticas se priorizan.

**Unproductive
Applications**

**Business Critical
Application**

2. Bloqueo de aplicaciones no deseables

Inteligencia y control de aplicaciones en un dispositivo de seguridad de próxima generación pueden identificar y bloquear aplicaciones improductivas o peligrosas antes de entrar en su red

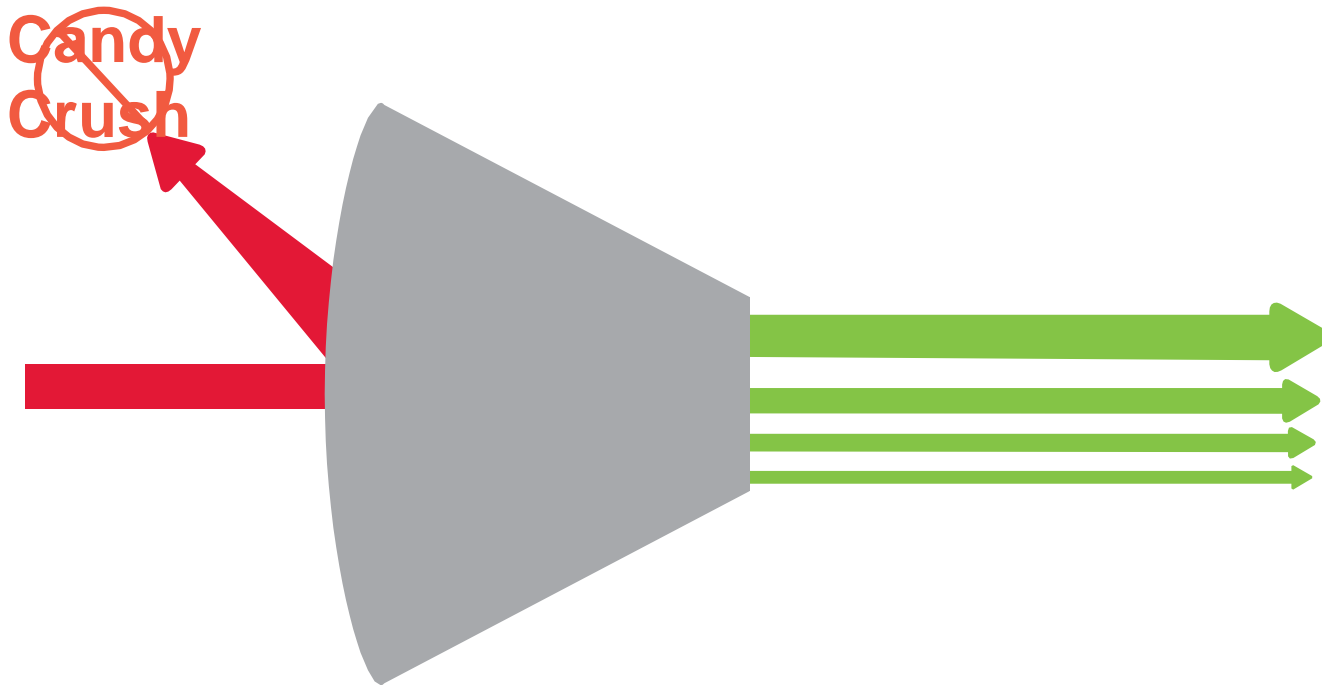

~~YouTube~~

~~BitTorrent~~

~~Candy Crush~~

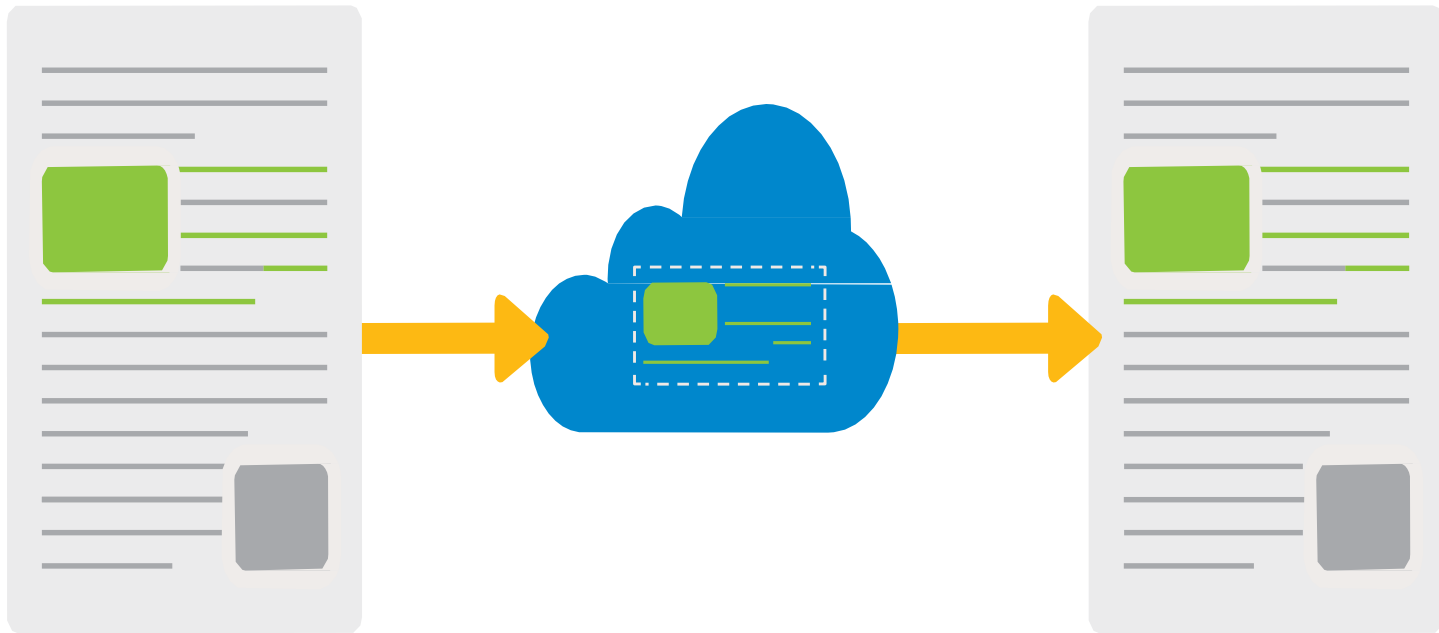

3. Administración de ancho de banda y aplicaciones

Inteligencia y control de aplicaciones proporciona herramientas para administradores para ordenar la productivo contra lo no productivo.

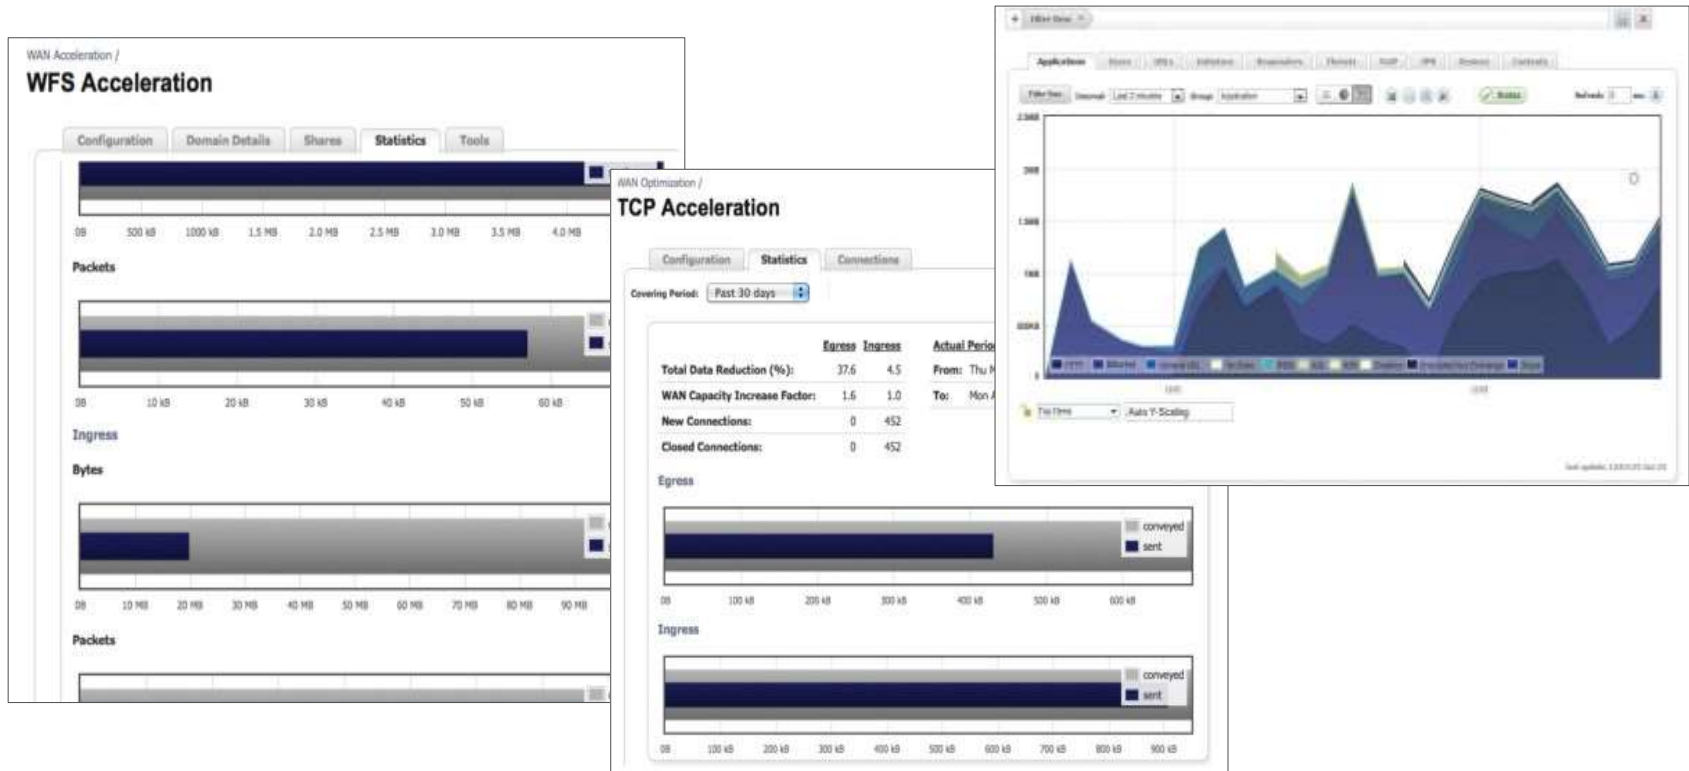

4. Data de-duplicación

La de duplicación de datos reduce el tráfico mediante la transmisión de los cambios sólo incrementales.

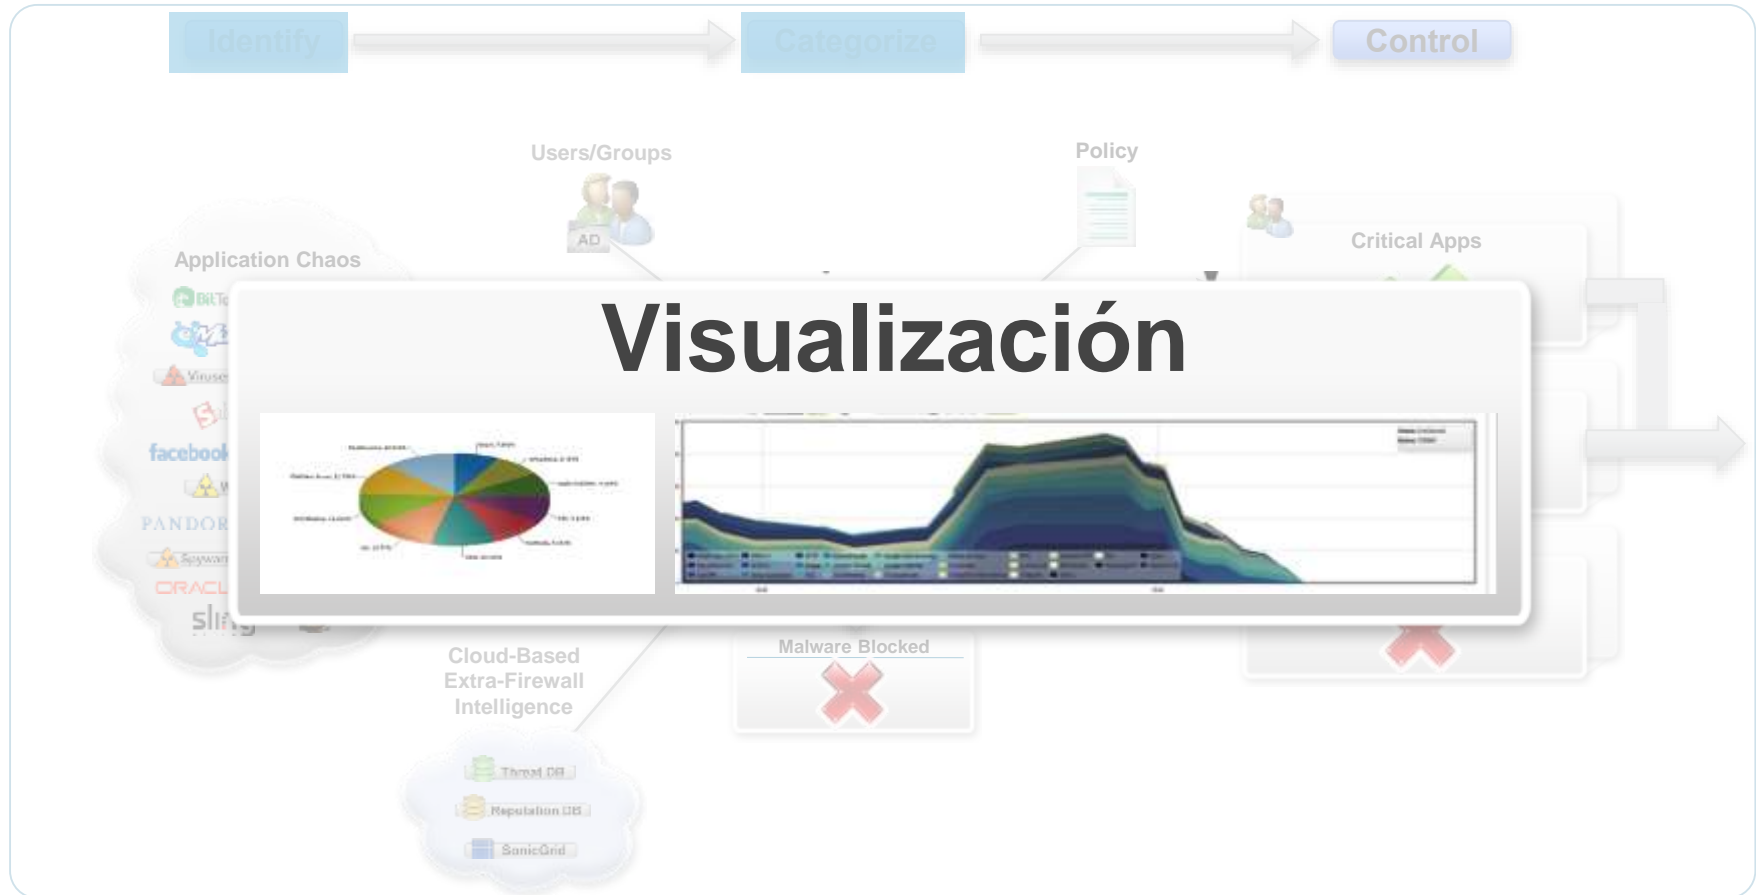

4. Visualización de tráfico en tiempo-real.

No ingrese en el carril rápido con los ojos cerrados
